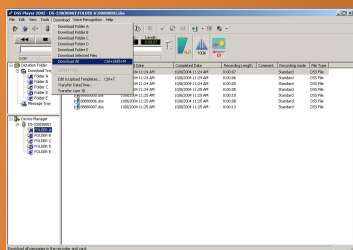

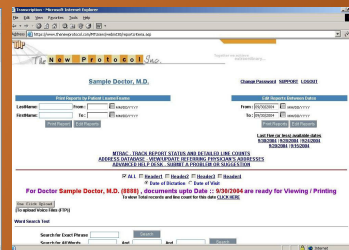

Fig 7 & 8 Upload voice files easily with our custom "One Click Upload" design. Connect digital recorder to your computer; run digital recorder software on your computer and from the pull down menu, choose "Download All" (Fig 7). Sign into our website and click the "One Click Upload" Button (Fig 8) and you are done.

The New Protocol, Inc. offers a rich end to end user friendly web based electronic transcription system, Web-MT, with optional electronic signature capability. Our Web-MT transcription system integrates easily with our Web-Hx and other third party EHR systems. We designed the Web-MT interface with ease of use in mind.
